To my incredible fans:

"Thank You" hardly scratches the surface of the way I feel for each and every one of you. This has been an amazing journey thus far, and I would never have been able to make the climb without your passion, love and support. Tony, Brian and I are living this dream because kind people like you keep supporting our music. We don't forget for a second just how unbelievably lucky we are, or how grateful I am to wake up each morning to a happy "Hi, Mama!" from both of my boys.

So from our family, to you and yours,

All our love! 

Crystal, Brian & Tony
